

Has teaching sapped your energy? Do the budding sprouts in your care stare at you with wooden expressions, while you are “board” out of your mind? Sycamore of the same old, same old? Pining to get away?

Tap into the energy of the Environmental Education Association of Indiana (EEAI)! Rooted in the Environmental Literacy Plan, what transpires at the 2017 conference will help you branch out. Seek the light and discover your preconceptions falling away as we revisit evergreen topics and nurture new ideas. Don’t bark up the wrong tree - plant the seed, and mark your calendar now as we graft a forest of activities for you to transplant to your own plot. It’s simple, arbor no doubts – blossom with us in 2017! Yew’d be nuts not to.

Check out <http://www.eeai.org/2017-Conference> for more info!
