## Friday Morning Pre-Conference Workshop

### Guidelines for Excellence in EE Workshop: Professional Development for Environmental Educators

Presented by: Renee Strnad and Donna Rogler

The North American Association for Environmental Education has developed a series of guidelines that set the standards for high-quality environmental education. Quality environmental education programs help develop an environmentally literate citizenry that can compete in our global economy; has the skills, knowledge, and inclinations to make well-informed choices; and exercises the rights and responsibilities of members of a community.

How does one achieve excellence in environmental education? In this workshop, participants will be presented with a set of competencies for environmental educators in a variety of job settings and examine professional responsibilities of environmental educators.
